2. Overview of King Scallop FMP

AM presented the draft overview paper and led a discussion on the direction and priorities it sets out.

Points discussed were the current position on stock assessment and MSY/proxy and resources.

3. Role of the group

JB reiterated that officials would work as closely and collaboratively with the group as possible. A definition of “co-production” or “co-management” often arises with stakeholder meetings. Because the Minister is the decision maker and the Welsh Government will be delivering any fisheries management changes, technically the nature of the collaboration is closer to “co-design”.

Officials will be as transparent as possible with the group but there will be times when officials receive information it is not appropriate to share with the group or publicly (legal advice was given as an example).

4. Terms of Reference (ToR)

AM led a discussion on the draft ToR and the following actions were agreed:

ACTION 1: Purpose of the Group 1.1 – Change ‘fishery in Wales’ to ‘fishery in Welsh zone’.

ACTION 2: Joint FMP – Add line on collaborating with Defra on joint activities.

ACTION 3: Membership – List member names and organisation. Discussion regarding sharing email addresses to facilitate group discussion outside meetings. Proposed wording added.

ACTION 4: Deputies – Add line allowing deputies to be nominated as necessary.

5. Discussion on next steps – inc. next meeting date

Points discussed were the need for a timeline and/or detailed delivery plan of the agreed priorities and whether new legislation could come in before December 2029.

AOB and close

No AOB items were raised.
