# Introduction

A monthly data release on new and follow up ophthalmology outpatients. It shows the numbers waiting within target date or within 25% beyond target date at the end of each month. Should their target data be missed, they are at risk of irreversible harm or significant adverse outcome (Health Risk Factor R1).

## At the end of November 2024

- 160,450 patient pathways, where the patient was assessed as Health Risk Factor R1, were waiting for an outpatient appointment; of those, 160,389 had a target date allocated.
- 51.2% patient pathways, assessed as R1, were waiting within their target date or within 25% beyond their target date.

## During November 2024

- 22,749 appointments were attended where the patient had been assessed as Health Risk Factor R1; of those, 20,784 had a target date allocated.
- 63.1% of appointments attended, assessed as R1, had waited within their target date or within 25% beyond their target date.
