

Glastir Woodland Management Verifiable Standards

Verifiable standards and guidelines for classification of failures of
Glastir

Version 2.0 2016

Requirements

Glastir Woodland Management provides targeted management for the following Glastir objectives:

- Bio-diversity
- Water
- Carbon
- Access

GWM also targets landscape and the historic environment and capital items are available to support improvements in these areas.

To help deliver positive outcomes for these objectives, GWM will provide area and capital grants for the following areas:

1. Thinning
2. Restocking
3. Infrastructure
4. Boundary Work
5. Protected and Priority Species
6. Vegetation Management
7. Pest Control
8. Public Access

Do not allow livestock onto the contract area

Do not allow any cropping within the contract area

Description of Breach	Severity	Extent	Duration
