Hi .....

Thanks for the message. Have attached the documents as requested, please let me know asap if you require any further information. I did send these documents to you on 20<sup>th</sup> March with a note saying that I was waiting for the landowner to confirm whether he was happy with the proposals.

Following advice from ..... I have completed the Dormice licence application and forwarded the relevant documents to Species Licensing today.

Regards

.....

Hi .....

Noting the contents of the Otter report and ..... comments with respect to EPS licences, it is safe to conclude that the Otter feature of the SAC will not be adversely affected by the proposed operations. I previously requested that the method statement should provide more certainty on the felling and extraction methods to demonstrate that effects (due to siltation) on fish in the SAC could be excluded. I feel it would be helpful if WG could provide a brief document headed 'HRA' for the application which refers to the method statement and Otter report and summarises the methods to

be used/measures to be taken, rather than relying on the various emails for this. I'll wait to receive this from you.

The EPS licence for Dormouse is a separate matter but I'd be interested to be copied in to correspondence on this.

Regards

.....

Hi .....

Apologies if I have already sent this message but ....., landowner at ..... farm is happy to proceed with the HRA on the basis of the method statement below. Is there anything else you require to progress the HRA?

Regards

.....

Hi .....

Here is a draft Method Statement for the harvesting works adjacent to the River Usk SAC.

I've sent a copy to the landowner and am waiting for his comments, in the meantime I wondering if you would mind looking at the draft and let me know if there is any additional information or issues I need to address before I send the final version.

Many thanks

.....
