20.03.2015

.....

As discussed during our meeting and previous correspondence. Due to the proximity of the River Usk SAC NRW will require information on proposed works to ensure the integrity of the SAC is maintained during proposed harvesting and GWM works. I have drafted a Method Statement and associated maps on your behalf that will inform the HRA. Could you please look at these and let me know if you have any concerns before I send to NRW.

Many thanks
