

Hi xxxx and xxxxx

Further to email below, unfortunately I am unable to complete xxxx and xxxxx International Roaming 'MyIT' request as they are under a different budget code. Are you happy to take this forward please and complete the roaming request? You can find the form to complete using the 'MyIT' link at the top of the intranet homepage – then search for international roaming which takes you to the form.

Thanks

Hi xxx

Request is authorised.

If the Cabinet Secretary is intending on accessing Stratus on her iPad then please make her aware that this can only be done through 3G/4G and not Wi-Fi whilst out in Vietnam. Our How Do I guide for ICT overseas details more regarding this - <https://documents.hf.wales.gov.uk/id:A18000125/document/versions/published>
I recommend that roaming requests still get raised if the phones in question are iPhones (plus the iPad if it does have 3G/4G). Because they use data differently to the old BlackBerries, by putting in a roaming request will ensure that ICT Services can arrange an appropriate data bundle for overseas usage.

Subject: Enabling devices for Cabinet Secretary's Vietnam visit 25 Nov - 1st Dec

Hi xxxx and Security Unit colleagues,

The Cabinet Secretary for Education is due to visit Vietnam flying out from London Heathrow to Ho Chi Minh on Saturday 25th November and returning to London Heathrow from Hanoi to on Friday 1st December. The below colleagues will be travelling with the Cabinet Secretary. They will change flights in Dubai en-route and during their visit they will take an internal flight from Ho Chi Minh to Hanoi on Tuesday 28th November.

They wish to take the following devices with them:

Cabinet Secretary – ipad
(SPS) – phone –
Specialist Policy Adviser phone -
(Director, Education directorate) – phone -

Grateful if you can authorise their devices for this visit ? Also grateful if you can confirm whether I need to complete a service request to enable international roaming (they have all been on previous overseas visits with their devices so I am not sure if this is required)?

Thanks
