I am currently embarking on a research project around Cyber Security and was hoping you could provide me with some contract information relating to following information:

1. Standard Firewall (Network) - Firewall service protects your corporate Network from unauthorised access and other Internet security threats
2. Anti-virus Software Application - Anti-virus software is a program or set of programs that are designed to prevent, search for, detect, and remove software viruses, and other malicious software like worms, trojans, adware, and more.
3. Microsoft Enterprise Agreement - is a volume licensing package offered by Microsoft. The information I require is around the procurement side and we do not require any specifics (serial numbers, models, location) that could bring threat/harm to the organisation.
