Subject: Hendy Farm Wind Turbine Site

I should be grateful to learn the reasons behind your decision to overrule the independent inspector who conducted a thorough enquiry into the proposed Hendy Farm wind turbine site. Have you ever visited the site which is accepted by all to an area of beauty which a wind farm would spoil for current and future generations?  
A decision to overrule the inspector is not good enough, full reasoning is required.

Yours Ever,

Llandrindod Wells
