Subject: Hendy Appeal

Dear Ms Griffiths,

It would be interesting to know why you have trounced local democracy and overruled your planning inspector's decision, to allow the wind farm development at Llandegley Rhos.

Turbines in this specific locality are completely inappropriate. Llandegley rocks are the iconic view witnessed driving into mid-Wales on the A44 and deserve full protection. I cannot believe that you have actually been to the location before overruling both Powys Council and the Planning Inspector's considered decision. There are also very sound ecological reasons for not allowing this development, in addition to landscape issues. The inspectors report was thorough and considered; I attended most of the hearings and heard the evidence myself.

This just shows us how the Welsh Government are completely disinterested in the needs and wishes of local people in mid Wales, in favour of some spurious energy target. This is a disgrace!

Yours sincerely,
