Dear Carwyn Jones,

Attached are photos of the exquisite landscape of the Llandegley Rocks and Llandegely Rhos area which your Rural Affairs minister has decided to trash by allowing construction of a windfarm despite the Planning Inspector turning down an appeal after a public enquiry.

And she didn't even bother to visit the place!

So have a good look at the photographs and enjoy for some of the most wonderful views in Wales which will be lost thanks to Lesley Griffiths.

Yours,
