Dear Lesley Griffiths

I am planning now to a documentary with one of Colin Firths production members (whose recent film about the forced sterilisation of native American Women has just been invited to be shown at the UN).

The film is about the scandal of Hendy and you will be named in this documentary as an instigator of the corruption that the story will unfold.

We will be looking to interview you in the New Year.

I live in Powys and you have let these developers literally go in and destroy Llandegely. I have been there and what they are doing is criminal.

You have a lot to answer for in what will emerge as a National Scandal.

You have done nothing to stop them in their total disregard for planning laws .

I hope you start to wake up and do the right thing Lesley before it is too late.
