Green infrastructure & place making & landscape (Investment) + (Policy)

- Creation of attractive environments should be a priority in determination of development. Management of our...
Evishing resources needs to be part of our growing communities - this includes access to the countryside, green spaces, creating healthy stronger communities.

Need to reduce the conflicts between requirements, Welsh Government guidance, etc.

A national GI strategy could offer a guide to where new infrastructure should be located, helping to tackle issues relating to flooding, terrorism, economic development, etc.

Perhaps the NDF could offer a strategic GI plan for the whole of Wales - (This could link to Area Statement Delivery) and supported by funding for specific GI investment.
Housing & infrastructure & inward investment currently focused on South & East Wales. We need to be incentivised through provision of infrastructure or promising inward investment to build in other areas which are currently not viable.

Set an overall economic + housing delivery target for Wales for 5, 10, 15 + 20 years. GVA growth target, household growth level.
	Delivery of overall housing number for Wales for market + affordable housing which is always the focus of the Welsh Government.

For the regions of Wales look to steer development to key cities + towns with a coherent spatial strategy + accessibility strategy.
	Set a target for regions of Wales to deliver level of development within their SDPs.

Link City Region + City Deal to regeneration initiatives + overall areas of Wales that need public sector investment in order to support development.
