Hywel

The First Minister would like a meeting to discuss this please in order to understand it properly. He wants to speak to those colleagues that know about the planning process as, in addition to discussing the documents that have been released he wants to understand where we are in the process, the next steps and the timetable for the decision process.

The meeting needs to happen before First Minister's questions next Tuesday so the only slot in his diary is at 8.30am on Tuesday morning in his office in the Bay and I'd be grateful if you and Neil could attend please. The Deputy Minister is also attending.

Grateful if you could let me know if anyone else needs to attend please.
