

The Planning Inspectorate Yr Arolygiaeth Gynllunio

Corona Virus (COVID-19) – Planning Inspectorate Wales Update 30th April 2020

Welsh Government Chief Planner has written to all Local Planning Authorities (LPA's) in Wales with updated advice and clarification on what the Health Protection (Coronavirus Restrictions)(Wales) Regulations mean for planning services generally but specifically, site visits and publicity. The advice can be found [here](#).

The updated advice allows Planning Inspectorate Wales to resume arranging and carrying out unaccompanied site visits where it is appropriate for us to do so, and where we can ensure we protect the health of all parties involved and comply with the regulations. We will be contacting those we have previously contacted to make fresh arrangements as soon as possible.

Whilst Planning Inspectorate Wales will aim to set up site visits for the earliest date possible, you should be aware that in order to do so safely, and to comply with the regulations, this may not be as quickly as we would prefer.
