Subject: MESSAGE FROM STEVE HAM: Nuffield Trust announce the Terms of Reference for advice on Velindre clinical model

Annwyl gydweithiwr,

Heddiw, mae'r felin drafod iechyd annibynnol, the Nuffield Trust, wedi cyhoeddi'r Cylch Gorchwyl ar gyfer y gwaith y bydd yn ei wneud ar gyfer Ymddiriedolaeth GIG Prifysgol Felindre. Nod y gwaith yw rhoi cyngor annibynnol i'r Ymddiriedolaeth ar y model clinigol rhwydweithiol rhanbarthol

Dear colleague,

Today, the independent health think tank, the Nuffield Trust, has issued the Terms of Reference for the work it will undertake for Velindre University NHS Trust. The aim of the work is to provide independent advice to the Trust on the regionally integrated network

integredig ar gyfer gwasanaethau canser trydyddol anlawfeddygol ledled De-ddwyrain Cymru.
Mae'r Cylch Gorchwyl wedi'i atodi er gwybodaeth i chi.

Gallwch ddarllen mwy ar dudalen prosiect Ymddiriedolaeth Nuffield sydd bellach yn fyw ar eu gwefan. Bydd y cyngor yn seiliedig ar y gwaith a wnaed gan y y rhaglen Trawsnewid Gwasanaethau Canser hyd yma a'r holl waith dros y misoedd diwethaf, gan gynnwys gwaith grwpiau gorchwyl a gorffen Dyfodolion Fellindre.

Beth mae hyn yn ei olygu i chi?

Fel rhan o'r gwaith, bydd Ymddiriedolaeth Nuffield yn siarad â nifer o unigolion sydd â swydd arwain ffurfiol neu rôl arweiniol o fewn yr Ymddiriedolaeth neu o fewn ein Byrddau Iechyd partner h.y. unigolion mewn swyddi sy'n arwain neu'n cynrychioli corff o staff/barn, naill ai ar ran eu sefydliad, eu gwasanaeth, eu rhanbarth neu'n genedlaethol.

Mae'r Nuffield Trust wedi gofyn i'r unigolion hyn siarad o safbwynt y rôl honno, yn ogystal ag unrhyw safbwyntiau personol sydd ganddynt. Maent hefyd yn awyddus i glywed gan yr holl staff gan ein bod wedi esbonio bod gwir awydd yn y Ganolfan Ganser i gymryd rhan yn y broses hon. Er mwyn rheoli hyn yn effeithiol, maent wedi gofyn i farn pobl gael ei bwydo drwy'r strwythurau presennol yn y Ganolfan Ganser e.e. drwy arweinwyr proffesiynol/penaethiaid gwasanaeth, arweinwyr SST a chyfarwyddwyr clinigol. Y mecanwaith arall ar gyfer rhoi adborth fydd drwy Gadeiryddion Grwpiau Gorchwyl a Gorffen Dyfodol Felindre:

Grŵp Gofal Heb ei Drefnu: Cadeiryddion, Paul Wilkins ac Eve Gallop Evans

clinical model for non-surgical tertiary cancer services across South East Wales.

The Terms of Reference are attached for your information.

You can read more on the Nuffield Trust's project page which is now live on their website. The advice will be based on the work carried out by the Transforming Cancer Services programme to date and all the work over recent months, including the ongoing work of the Velindre Futures task and finish groups.

What does this mean for you?
As part of the work, the Nuffield Trust will speak with a number of individuals who hold a formal leadership position or role within the Trust or within our partner Health Boards i.e. individuals in posts which lead or represent a body of staff/opinion, either on behalf of their organisation, service, region or nationally.

The Nuffield Trust have asked that these individuals speak from the perspective of that role, in addition to any personal views they may have. They are also keen to hear from all staff as we have explained that there is a real appetite within the Cancer Centre to engage in this process. In order to manage this effectively, they have requested that people's views are fed through the existing structures within the Cancer Centre e.g. *via* professional

Grŵp Ymchwil a Datblygu: Cadeirydd, Yr Athro Mererid Evans

Grŵp Addysg a Hyfforddiant: Cadeirydd, Dr Louise Hanna

Grŵp Adolygu Cymheiriaid Trydyddol Oncoleg: Cadeirydd, yr Athro Richard Adams.

Mae Ymddiriedolaeth Nuffield yn hyderus y bydd y broses hon yn galluogi eich barn i gael ei chlywed. Bydd yr holl gyfweliadau'n cael eu cynnal yn gwbl gyfrinachol a bydd y Nuffield Trust yn sicrhau na ellir adnabod unrhyw unigolyn/grŵp yn yr adroddiad terfynol.

Bydd adroddiad terfynol yn cael ei ddarparu i'r Ymddiriedolaeth ym mis Tachwedd.

Rwy'n hyderus bydd y Nuffield Trust yn defnyddio eu harbenigedd mewn modd hynod effeithiol ac annibynnol i brofi ein cynigion a'r pryderon a godwyd.

Diolch i chi gyd am eich cydweithrediad wrth fwrw ymlaen â'r gwaith pwysig hwn.

Dymuniadau gorau

Steve

leads/heads of service, SST leads and clinical directors. The other mechanism for providing feedback will be through the Chairs of the Velindre Futures Task and Finish Groups:

Unscheduled Care Group: Chairs, Paul Wilkins and Eve Gallop Evans
Research and Development Group: Chair, Professor Mererid Evans
Education and Training Group: Chair, Dr Louise Hanna
Tertiary Oncology Peer Review Group: Chair, Professor Richard Adams.

The Nuffield Trust are confident that this process will enable your views to be heard. All interviews will be conducted under strictest confidence and the Nuffield Trust will ensure that no individual/group are identifiable within the final report.

A final report will be provided to the Trust in November.

I am confident that the Nuffield Trust will apply robust and independent thinking to test our proposals and the concerns which have been raised.

Thank you all for your continued co-operation in taking forward this important work.

Best wishes,
Steve
