

Rhoscrowther | Wind Farm

Environmental Statement

Volume III: Technical Appendices

Appendix 5.2 - LANDMAP data sheets

October 2021

SURVEY DETAILS FOR PMBRKVS061

<p>Area Unique ID: PMBRKVS061 Aspect: Visual and Sensory Area: Castlemartin Region: Pembrokeshire Survey Date: 2002-09-26</p>	
<p>Level 1: Lowland Level 2: Rolling Lowland Level 3: Mosaic Rolling Lowland</p>	

Monitoring

Q1 - Date of monitoring?	<ul style="list-style-type: none"> 2015-02-06
Q1a - Monitoring undertaken by	<ul style="list-style-type: none"> Stages 1, 2 and 3 change detection, field verification and amendment completed by Bronwen Thomas, in conjunction with the planning authority. Quality Assurance completed by White Consultants.
Q1b - Has this record been updated following monitoring work?	<ul style="list-style-type: none"> This record has been updated following monitoring work, there was a real change in the aspect area - views to more industry
Q1c - Change indicated by	<ul style="list-style-type: none"> OS Data, Aerial Photographs Policies, plans & information resources Fieldwork
Q1d - What has changed?	<ul style="list-style-type: none"> Description Condition & Trend Boundaries
Q1e - Has the information ever been verified in the field?	<ul style="list-style-type: none"> Yes - 1:25,000
Q2 - Does this area have a special or functional link with an adjacent area?	<ul style="list-style-type: none"> No
Q2a - During which season(s) was fieldwork carried out?	<ul style="list-style-type: none"> Late summer

Description

Q3 - Summary Description	<ul style="list-style-type: none"> The large Aspect Area of Castlemartin contains a rolling agricultural landscape with interspersed woodland areas and small valleys. Red (sandstone) soils underlie the characterise fields and minor
--------------------------	--

	<p>roads of this area. Borrowed views across the Cleddau estuary are generally attractive, with visual detractors including borrowed views of the power station & oil refinery and views of large pylons within the Aspect Area.</p> <ul style="list-style-type: none"> • Change detection 2014: From the northern half of this area there are views across the Haven to wind turbines and oil terminals - additional industrial 'clutter'.
Q4 - Physical Form and Elements: Topographic Form?	<ul style="list-style-type: none"> • Rolling/Undulating
Q5 - Physical Form and Elements: Landcover Pattern?	<ul style="list-style-type: none"> • Field Pattern/Mosaic
Q6 - Physical form and elements: Settlement pattern	<ul style="list-style-type: none"> • Scattered Rural/Farm
Q7 - Physical form and elements: Boundary type	<ul style="list-style-type: none"> • Managed Hedge
Q8 - Aesthetic Qualities: Scale?	<ul style="list-style-type: none"> • Medium
Q9 - Aesthetic Qualities: Sense of Enclosure?	<ul style="list-style-type: none"> • Open
Q10 - Aesthetic Qualities: Diversity?	<ul style="list-style-type: none"> • Simple
Q11 - Aesthetic Qualities: Texture?	<ul style="list-style-type: none"> • Smooth
Q12 - Aesthetic Qualities: Lines?	<ul style="list-style-type: none"> • Angular
Q13 - Aesthetic Qualities: Colour?	<ul style="list-style-type: none"> • Muted
Q14 - Aesthetic Qualities: Balance?	<ul style="list-style-type: none"> • Balanced
Q15 - Aesthetic Qualities: Unity?	<ul style="list-style-type: none"> • Unity
Q16 - Aesthetic Qualities: Pattern?	<ul style="list-style-type: none"> • Regular
Q17 - Aesthetic Qualities: Seasonal Interest?	<ul style="list-style-type: none"> • Mixed
Q18 - Other Factors: Level of Human Access?	<ul style="list-style-type: none"> • Frequent
Q19 - Other Factors: Night-Time Light Pollution?	<ul style="list-style-type: none"> • Slight - the settlements of Lamphey and Milton within the Aspect Area create localised light pollution as does the town of Pembroke on the northern boundary of the area, whilst the remainder of the Aspect Area is much less affected.

Q20 - Other Factors: Use of Construction Materials?	<ul style="list-style-type: none"> • Generally Appropriate
Q21 - What materials? Give Details:	<ul style="list-style-type: none"> • The majority of the Aspect Area is rural with most residences made of stone with render and slate roofs in the traditional style of the area with some modern additions appearing similar in style and others attractively faced in exposed stone...
Q22 - There are attractive views...	<ul style="list-style-type: none"> • ...both in and out - the area features an open rural landscape with strong coastal influence and some areas having open, windswept landscapes to the west of the area and a raised position offering views of the estuary bay to the north...
Q23 - There are detractive views...	<ul style="list-style-type: none"> • ...both in and out - there are large scale electricity pylons within the Aspect Area that detract from the landscape as do views of the power station and oil refinery to the west of the area... • 2014 - additional views to wind turbines and oil terminals across Haven
Q24 - Perceptual and Other Sensory Qualities	<ul style="list-style-type: none"> • Exposed • Attractive • Remote • Wild - the aspect area is generally settled with an agricultural landscape displaying the traditional use of the land in stone walls and traditional buildings... The western part of the area is more open and exposed with a wild feel to it despite the impact of the industrial elements to the north of this area... • Unattractive • Settled
Q25 - What is the sense of place/local distinctiveness	<ul style="list-style-type: none"> • Moderate - borrowed views across the Daugleddau estuary and a dune like landscape with views of the oil refinery and power station to the west of the area add to the more general agricultural aspect of the majority of the Aspect Area...

Evaluation

Q26 - Value:	<ul style="list-style-type: none"> • Moderate - the Aspect Area contains a characteristic farmland landscape with small fields and minor roads that is enhanced by borrowed views of the Daugleddau estuary to the west, yet is reduced in value by the impact of pylons and industrial works out to the north...
Q27 - Condition:	<ul style="list-style-type: none"> • Fair - the area is under a generally appropriate level of care with mostly well-kept yet unintensive areas...

Q28 - Trend:	<ul style="list-style-type: none"> Declining - gradually more visual intrusions of industrial developments around the Haven
--------------	--

Recommendations

Q29 - Existing management	<ul style="list-style-type: none"> Generally Appropriate
Q30 - Existing management remarks:	<ul style="list-style-type: none"> The Aspect Area contains mostly rural landscapes with some scattered small villages and is generally well-managed with some areas including stone walls that are apparently less well-managed...
Q31 - Principal management recommendation:	<ul style="list-style-type: none"> Preserve the rural character of the Aspect Area
Q32 - Guideline	<ul style="list-style-type: none"> Medium Term - prevent further encroachment of industrial works into the north of the Aspect Area. Long Term - preserve the rural character of the aspect area defined by woodland, farmland and coastal and estuarine hinterland.
Q33 - Define the key qualities that should be conserved:	<ul style="list-style-type: none"> Coastal aspect and wilderness feel to the western end of the Aspect Area...
Q34 - Define the key qualities that should be enhanced:	<ul style="list-style-type: none"> None
Q35 - Define the key qualities that should be changed:	<ul style="list-style-type: none"> None
Q36 - Define the key elements that should be conserved:	<ul style="list-style-type: none"> Traditional buildings and views of the Daugleddau estuary to the north should be conserved as these enhance the character of the Aspect Area...
Q37 - Define the key elements that should be enhanced:	<ul style="list-style-type: none"> Boundaries including stone walls should be more well maintained to ensure their preservation in open exposed areas...
Q38 - Define the key elements that should be changed:	<ul style="list-style-type: none"> None

Tolerance to Change

Q39 - Are there any significant threats to the current integrity and condition of the visual & sensory features of the area?	<ul style="list-style-type: none"> Not known
--	---

Aspect Area Boundary

Q40 - To what level was this information site-surveyed?	<ul style="list-style-type: none"> Level 3
---	---

Q41 - At 1:10,000, how much of the Aspect Area boundary is precise?	<ul style="list-style-type: none"> Some - boundary with VS059 and VS065 defined by relatively greater woodland content, with VS063 by undulating landform...
Q42 - What baseline information source was used for Aspect Area boundary mapping?	<ul style="list-style-type: none"> OS Landline
Q43 - If OS Data was used, what was the scale?	<ul style="list-style-type: none"> 1:10,000
Q44 - What is the justification for the Aspect Area boundaries?	<ul style="list-style-type: none"> The Aspect Area boundary contains the open lowland mosaic of farmland with scattered small settlements in the south west part of Pembrokeshire... 2014 - boundary change to exclude expansion of Pembroke in two places

Bibliography

Q45 - List the key sources used for this assessment	<ul style="list-style-type: none"> OS plans and aerial photographs
---	---

Evaluation Matrix

Q46 - Evaluation Criteria: Scenic quality	<ul style="list-style-type: none"> Moderate - the Aspect Area contains attractive views of rural landscapes with minor roads and small villages crossed in some areas by imposing pylons as well as borrowed views of the Daugleddau estuary beyond the less attractive oil refinery and power station to the north of the area...
Q47 - Evaluation Criteria: Integrity	<ul style="list-style-type: none"> Moderate - the pylons and industrial plants that impact on the area do not significantly affect the nature of this rural area with a strong coastal influence in places...
Q48 - Evaluation Criteria: Character	<ul style="list-style-type: none"> Moderate - the area is characterised by pleasant farmland with minor lanes and small villages and is enhanced by borrowed estuarine views and a windswept coastal feel to the west...
Q49 - Evaluation Criteria: Rarity	<ul style="list-style-type: none"> Moderate - the majority of the area is characteristic of rural landscapes in Pembrokeshire yet is of note because of its undeveloped nature and coastal aspect...
Q50 - Evaluation Criteria: Overall Evaluation	<ul style="list-style-type: none"> Moderate - the Aspect Area is largely an attractive rural landscape influenced by farming practices both historically and in the present... Small villages and coastal influences add to the value of the area which is, however, reduced by the impact of large pylons close to Pembroke and views of industrial plants to the north of the area...

Q51 - Justification of overall evaluation	<ul style="list-style-type: none"> The overall moderate valuation of the Aspect Area has been reached through consideration of the moderate values for all criteria of scenic quality, integrity, character and rarity which reflect the not uncommon agricultural character of the landscape
---	--

Assessment

Q52 - Additional Assessments	<ul style="list-style-type: none"> None
Q53 - Additional Comments	<ul style="list-style-type: none"> None

LMP 14 & 09

Q54 - LANDMAP derived landscape types (LMP14)	<ul style="list-style-type: none"> Valleys and rolling lowland (mosaic 20-50% wooded, hedgerow character)
Q55 - LANDMAP derived landscape types (LMP09)	<ul style="list-style-type: none"> Lowland mosaic >20% wooded

Q14 - Aesthetic Qualities: Balance?	<ul style="list-style-type: none"> Balanced
Q15 - Aesthetic Qualities: Unity?	<ul style="list-style-type: none"> Unity
Q16 - Aesthetic Qualities: Pattern?	<ul style="list-style-type: none"> Organised
Q17 - Aesthetic Qualities: Seasonal Interest?	<ul style="list-style-type: none"> Mixed
Q18 - Other Factors: Level of Human Access?	<ul style="list-style-type: none"> Frequent
Q19 - Other Factors: Night-Time Light Pollution?	<ul style="list-style-type: none"> Slight - there are some small-scale settlements as well as scattered agricultural and military buildings within the Aspect Area that lead to localised light pollution...
Q20 - Other Factors: Use of Construction Materials?	<ul style="list-style-type: none"> Generally Appropriate
Q21 - What materials? Give Details:	<ul style="list-style-type: none"> Traditional stone built cottages and houses with characteristic render and pastel painted colours form the majority of developments, with additions in modern alternative block stone or brick generally decorated to appear similar... Less appropriate modern buildings featuring a high proportion of

	metal in sheeting etc... are associated with military and agricultural areas...
Q22 - There are attractive views...	<ul style="list-style-type: none"> ...both in and out - the area offers pleasant views of the gently undulating grazed farmland and rough areas of the landscape within and views to the coast out to the south...
Q23 - There are detractive views...	<ul style="list-style-type: none"> ...within - modern agricultural buildings and military sheds form a minor detractor to the area...
Q24 - Perceptual and Other Sensory Qualities	<ul style="list-style-type: none"> Attractive Remote - the aspect area is largely rural yet has a pleasant settled feel with occasional artillery noise disrupting this impression... Noisy Settled - the open coastal grassland landscape of the aspect area has a settled feel with strong impressions of the coastal and military aspects through noises of gunfire, coastal wind etc...
Q25 - What is the sense of place/local distinctiveness	<ul style="list-style-type: none"> Moderate - the sense of place is identified by the agricultural and military landscape which is enhanced by the coastal aspect and views...

Evaluation

Q26 - Value:	<ul style="list-style-type: none"> Low - the open agricultural and coastal landscape is reduced in value by the impact of the military range and associated buildings and noise...
Q27 - Condition:	<ul style="list-style-type: none"> Poor - use of parts of the area as military grounds lead to relatively low levels of care in these areas giving a neglected appearance although this is likely to benefit some wildlife in the area...
Q28 - Trend:	<ul style="list-style-type: none"> Constant - the area has evidence of previous changes to land use including quarrying and military activities yet appears to be in a fairly stable state at present...

Recommendations

Q29 - Existing management	<ul style="list-style-type: none"> Generally Appropriate
Q30 - Existing management remarks:	<ul style="list-style-type: none"> Some areas are appropriately managed as farmland with small villages, some having attractive buildings retained... Areas of the military range are less well managed...
Q31 - Principal management recommendation:	<ul style="list-style-type: none"> Retail [retain?] coastal character with low levels of built development with maintenance of traditional field boundaries...
Q32 - Guideline	<ul style="list-style-type: none"> Immediate - maintenance hedges/walls

	<ul style="list-style-type: none"> Long Term - preserve coastal character with low levels of built development
Q33 - Define the key qualities that should be conserved:	<ul style="list-style-type: none"> Coastal aspect and traditional construction methods...
Q34 - Define the key qualities that should be enhanced:	<ul style="list-style-type: none"> None
Q35 - Define the key qualities that should be changed:	<ul style="list-style-type: none"> None
Q36 - Define the key elements that should be conserved:	<ul style="list-style-type: none"> Field boundaries (hedges and walls) and traditional buildings...
Q37 - Define the key elements that should be enhanced:	<ul style="list-style-type: none"> Walls and hedges that have suffered neglect should be restored with appropriate management including regular cutting hedges and protection from overgrazing vulnerable plants...
Q38 - Define the key elements that should be changed:	<ul style="list-style-type: none"> None

Tolerance to Change

Q39 - Are there any significant threats to the current integrity and condition of the visual & sensory features of the area?	<ul style="list-style-type: none"> Not known

Q1a - Monitoring undertaken by	<ul style="list-style-type: none"> Stages 1, 2 and 3 change detection, field verification and amendment completed by Bronwen Thomas, in conjunction with the planning authority. Quality Assurance completed by White Consultants.
Q1b - Has this record been updated following monitoring work?	<ul style="list-style-type: none"> This record has been updated following monitoring work, there was a real change in the aspect area - views across Haven to detractors.
Q1c - Change indicated by	<ul style="list-style-type: none"> Fieldwork
Q1d - What has changed?	<ul style="list-style-type: none"> Description
Q1e - Has the information ever been verified in the field?	<ul style="list-style-type: none"> Yes - 1:25,000
Q2 - Does this area have a special or functional link with an adjacent area?	<ul style="list-style-type: none"> Yes - The Aspect Area has close links with the two adjacent bays: West Angle Bay (VS074) and Angle Bay (VS078). <p>NOTE: NRW confirmed in an email of 24/09/20 that this should refer to VS074: St Ann's Head (of which West Angle Bay is a part) and VS117: Angle Bay. VS078 is Gelliswick Bay on the north side of the Haven.</p>
Q2a - During which season(s) was fieldwork carried out?	<ul style="list-style-type: none"> Late summer

Description

Q3 - Summary Description	<ul style="list-style-type: none"> The Aspect Area of Angle contains some exposed hill tops with scattered farmsteads in an agricultural landscape on the coastal hinterland at the south west extremity of the study area. The open landform and borrowed coastal views give the area a strong coastal feel with a high presence of
--------------------------	---

	<p>traditional cottage buildings in Angle. Borrowed views over the Cleddau estuary to the oil refinery creates a visual detractor but views to West Angle Bay are attractive.</p> <ul style="list-style-type: none"> Change detection 2014: Increase in wind turbines and oil terminal across the Haven has added to visual detractors in northern part of this area.
Q4 - Physical Form and Elements: Topographic Form?	<ul style="list-style-type: none"> Rolling/Undulating
Q5 - Physical Form and Elements: Landcover Pattern?	<ul style="list-style-type: none"> Field Pattern/Mosaic
Q6 - Physical form and elements: Settlement pattern	<ul style="list-style-type: none"> Village
Q7 - Physical form and elements: Boundary type	<ul style="list-style-type: none"> Hedge with Trees
Q8 - Aesthetic Qualities: Scale?	<ul style="list-style-type: none"> Medium
Q9 - Aesthetic Qualities: Sense of Enclosure?	<ul style="list-style-type: none"> Exposed
Q10 - Aesthetic Qualities: Diversity?	<ul style="list-style-type: none"> Simple
Q11 - Aesthetic Qualities: Texture?	<ul style="list-style-type: none"> Mixture
Q12 - Aesthetic Qualities: Lines?	<ul style="list-style-type: none"> Angular
Q13 - Aesthetic Qualities: Colour?	<ul style="list-style-type: none"> Muted
Q14 - Aesthetic Qualities: Balance?	<ul style="list-style-type: none"> Balanced
Q15 - Aesthetic Qualities: Unity?	<ul style="list-style-type: none"> Unity
Q16 - Aesthetic Qualities: Pattern?	<ul style="list-style-type: none"> Organised
Q17 - Aesthetic Qualities: Seasonal Interest?	<ul style="list-style-type: none"> Mixed
Q18 - Other Factors: Level of Human Access?	<ul style="list-style-type: none"> Infrequent
Q19 - Other Factors: Night-Time Light Pollution?	<ul style="list-style-type: none"> Slight - the village of Angle and the surrounding scattered farmsteads and rural residences cause localised light pollution which is not large scale.
Q20 - Other Factors: Use of Construction Materials?	<ul style="list-style-type: none"> Generally Appropriate

<p>Q21 - What materials? Give Details:</p>	<ul style="list-style-type: none"> • Most properties are in the attractive traditional style with rendered stone and slate roofs. Some additional properties are constructed in a more modern method with rendered block stone which appears similar to the traditional style. Some recent extensions have utilised exposed stone whilst a more modern style development on the western edge of Angle village has used rendered stone with pastel colours in an attempt to match the surroundings
<p>Q22 - There are attractive views...</p>	<ul style="list-style-type: none"> • ...both in and out - views of attractive cottages, fields, hedgebank bordered lanes and woodland patches within the area are further enhanced by coastal and estuarine views outside of the Aspect Area.
<p>Q23 - There are detractive views...</p>	<ul style="list-style-type: none"> • ...both in and out - a small caravan park has a negative visual impact when approached from the west whilst further detractors are provided by telecom masts and by borrowed views of the oil refinery across the estuary. • 2014 - wind turbines and oil terminal across the Haven increase views to detractors
<p>Q24 - Perceptual and Other Sensory Qualities</p>	<ul style="list-style-type: none"> • Exposed • Attractive • Tranquil • Sheltered • Safe • Remote • Wild - the inland landscape of village, farmland and small wooded valley contrast with more exposed areas towards the coast. • Settled
<p>Q25 - What is the sense of place/local distinctiveness</p>	<ul style="list-style-type: none"> • Moderate - borrowed views across the Daugleddau estuary add to the sense of place as do views of the coastline to the north and west.

Evaluation

<p>Q26 - Value:</p>	<ul style="list-style-type: none"> • Moderate - the area of Angle and its surroundings are characterised by traditional agricultural field patterns with hedges and hedgebanks interspersed with small wooded valleys and traditional buildings and has a strong coastal feel.
<p>Q27 - Condition:</p>	<ul style="list-style-type: none"> • Fair - the area has a generally appropriate level of care with areas appearing unintensive yet well maintained.

Q28 - Trend:	<ul style="list-style-type: none"> Constant - this valuation was considered to be accurate at the time of survey.
--------------	--

Recommendations

Q29 - Existing management	<ul style="list-style-type: none"> Generally Appropriate
Q30 - Existing management remarks:	<ul style="list-style-type: none"> The agricultural management is small scale and varied with wooded valleys and hedgerows maintained and development being generally considerate of traditional techniques.
Q31 - Principal management recommendation:	<ul style="list-style-type: none"> Preserve the traditional character of the area.
Q32 - Guideline	<ul style="list-style-type: none"> Medium Term - retain character of Angle village through sensitive, small scale development Medium Term - seek to minimise the visual impact of industrial works within neighbouring Aspect Areas Long Term - preserve the traditional coastal and agricultural character of the landscape.
Q33 - Define the key qualities that should be conserved:	<ul style="list-style-type: none"> Traditional management and construction together with the coastal aspect of the area.
Q34 - Define the key qualities that should be enhanced:	<ul style="list-style-type: none"> Visual quality of borrowed views to industrial areas
Q35 - Define the key qualities that should be changed:	<ul style="list-style-type: none"> None
Q36 - Define the key elements that should be conserved:	<ul style="list-style-type: none"> Traditional buildings, hedgerows and wooded valleys should be conserved as they define the areas character.
Q37 - Define the key elements that should be enhanced:	<ul style="list-style-type: none"> Views of industrial workings within the wider landscape outside the Aspect Area.
Q38 - Define the key elements that should be changed:	<ul style="list-style-type: none"> None

Tolerance to Change

Q39 - Are there any significant threats to the current integrity and condition of the visual & sensory features of the area?	<ul style="list-style-type: none"> Not known

Aspect Area Boundary

Q40 - To what level was this information site-surveyed?	<ul style="list-style-type: none"> Level 3
---	---

Q41 - At 1:10,000, how much of the Aspect Area boundary is precise?	<ul style="list-style-type: none"> Some - boundary with VS061 defined by relatively low woodland context.
Q42 - What baseline information source was used for Aspect Area boundary mapping?	<ul style="list-style-type: none"> OS Landline
Q43 - If OS Data was used, what was the scale?	<ul style="list-style-type: none"> 1:10,000
Q44 - What is the justification for the Aspect Area boundaries?	<ul style="list-style-type: none"> The Aspect Area boundaries define the coastal agricultural area with evidence of traditional management in south west Pembrokeshire.

Bibliography

Q45 - List the key sources used for this assessment	<ul style="list-style-type: none"> OS plans and aerial photographs
---	---

Evaluation Matrix

Q46 - Evaluation Criteria: Scenic quality	<ul style="list-style-type: none"> Moderate - the Aspect Area features attractive views of the traditional buildings and field patterns set among hedges and wooded valleys which is enhanced by the coastal feel and associated views out to sea, except where the oil refinery can be seen to the east.
Q47 - Evaluation Criteria: Integrity	<ul style="list-style-type: none"> High - the Aspect Area has retained a strong sense of the traditional methods of agricultural land management and of building techniques.
Q48 - Evaluation Criteria: Character	<ul style="list-style-type: none"> High - the area is characterised by the presence of low levels of development, retention of traditional buildings and field patterns set against a coastal surrounding and interspersed with small wooded valleys.
Q49 - Evaluation Criteria: Rarity	<ul style="list-style-type: none"> Moderate - the area is of note for its coastal influence and for the degree to which it has retained traditional buildings and field patterns within the landscape.
Q50 - Evaluation Criteria: Overall Evaluation	<ul style="list-style-type: none"> Moderate - the agricultural landscape around Angle features traditional buildings and field patterns with scattered wooded valleys and a strong coastal feel yet is negatively affected by its proximity to the nearby oil refinery.
Q51 - Justification of overall evaluation	<ul style="list-style-type: none"> The overall "moderate" evaluation has been reached through consideration of the "moderate" values given for scenic quality and rarity and "high" values given for integrity and character. This represents the impact of industrial views on this

	well situated agricultural landscape on the coastal hinterland.

Q49 - Evaluation Criteria: Rarity	<ul style="list-style-type: none"> Moderate - the bay is of some note for its sheltered and undeveloped nature in close proximity to developed areas...
Q50 - Evaluation Criteria: Overall Evaluation	<ul style="list-style-type: none"> High - the Aspect Area consists of an attractive mud and sand bay with rocky outcrops in a sheltered location and having views out through two rocky headlands to the Haven, yet is negatively affected by its proximity to the nearby oil refinery and wind turbines.
Q51 - Justification of overall evaluation	<ul style="list-style-type: none"> The overall moderate evaluation has been reached following consideration of the moderate values awarded to the areas scenic quality and rarity and its high values for integrity and character... This portrays the impact that the surrounding industrial area has on the feel of the attractive bay...
