

Dear all

Further to the below representations, a resident has contacted me to ask if the construction traffic could consist of smaller vehicles. The resident has suggested these vehicles be half the size of those outlined in the application, to ease the impacts on Llandough village.

I would therefore be grateful if this suggestion could be considered as part of the consultation process.

Thank you for your assistance with this, and I look forward to hearing from you.

Kind regards,

Cllr George Carroll

Elected Member of the Vale of Glamorgan Council
Llandough ward
