

I would like to express my concerns about the above construction. Do this mean  
Does this mean that construction traffic will go through the Village of Llandough?  
This is a village which has traffic issues already. The roads were not meant for all the  
traffic using them. With more and more housing being build with no thought of  
access.

Llandough does have a large hospital and many of the staff, patients and visitors  
parking on the roads causing obstructions and bottlenecks.

How are construction lorries to get through without causing problems for residents  
and ambulances.?

Residents feel their needs and road safety is being ignored .

Please rethink this access to the proposed site.
