Dear Minister

I am contacting you regarding the ongoing consultation for the proposed Llandeilo Bypass project.

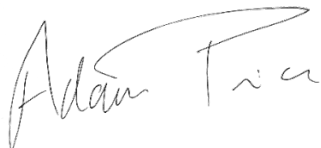

It has come to my attention that many people who responded to the consultation online, have since received a message informing them that they must re-enter their response as a result of a technical glitch. I am concerned that ongoing issues with the online consultation will inadvertently create a false narrative that this issue is not attracting much interest.

Additionally, I am slightly concerned that there is no back-up option for those who were planning on attending the consultation events that have been cancelled due to COVID-19. I would like to make it clear that I support any decision taken in the interest of public health and safety, but there needs to be some kind of mechanism that captures people's opinions in its place.

Currently, in order to respond to the consultation by mail, you need to download a copy of the consultation response form online – for many people, this is not viable. I would urge you to consider alternative ways of collecting responses, like mailing forms to local residents, in order to fully capture the strength of feeling in the locality.

Yn ddiffuant,

Adam Price MS
