

Key Tasks Secondees – Strategic Road Network:

- Quality Assurance and monitoring of schemes approved under WG's Trunk Roads programmes.
- Provide input to initial feasibility and design for selected Trunk Road schemes with significant Active Travel elements.
- Advise on prioritisation of Active Travel related allocations of funding under the capital trunk roads programme and effective evaluation and monitoring of schemes.
- Input to approaches to the Road Safety Audit process to ensure this does not adversely affect opportunities to increase Active Travel through significant transport schemes, particularly in relation to Trunk Road interfaces in Wales.
- Liaise with South Wales and North/Mid Wales TR Agents as required to advise on scheme delivery in relation to Active Travel elements

Key Tasks Secondee – Active Travel Policy Team:

- Managing the implementation of the Active Travel Act and wider promotion of Active Travel.

This will include:

- Project managing the preparation of the Active Travel Guidance, including translation and publication, and helping procure or develop training and awareness sessions on the statutory guidance and tools for local authority and private sector transport planners and engineers
- Support the procurement of external support contracts to enable local authorities to effectively engage on their active travel network plans
- Support the management of local transport grants as required
- Contributing to advice and correspondence for the Deputy Minister and Minister for Economy and Transport Minister, supported by the strong EST Government Business Team
- Monitoring and stakeholder engagement on the delivery of the Active Travel Action Plan November 2019 14
- Engagement with internal and external stakeholders to support integration of active travel into other policies and programmes
