Subsampling and filtering of modules

Not all modules are asked of all respondents. Some modules only apply to some respondents (e.g. questions for parents with children at school); others are asked of a random subsample of respondents.

Filtering and subsampling information is included in the questionnaire at the start of each filtered or subsampled topic, marked as follows:

FILTERED MODULE:

SUBSAMPLED MODULE:

Where this information appears, it applies to the rest of the questions in that module unless otherwise indicated.

More details on which modules are subsampled are given in Annex A.

Filtering of questions

Some questions within modules only apply to those who have answered in a particular way to an earlier survey question. This filtering information is provided in the questionnaire above each question. For example:

- **ASK ALL** – Question is asked of all respondents for whom the module applies.
- **ASK IF 1 OR 3 AT WelSpk** – Question is asked only of respondents for whom the module applies and whose answer at the question labelled WelSpk was response option 1 or 3.

Soft and hard checks

A range of checks are built in to the computer implementation of the questionnaire to ensure that responses are in a sensible range (for variables like height) and are consistent with each other (for example, so that respondents can’t both give an answer to a question and also say they don’t know the answer). These checks are either ‘soft’ checks, so the interviewer gets an error message but can choose to suppress it and continue; or ‘hard’ checks, so the response must be corrected before the interview continues. A full list of the soft and hard checks used is available from the National Survey team (surveys@gov.wales) on request.
Guide to question format

All questions in the survey questionnaire follow a similar format. Below is a guide to interpreting the format.

Example of question layout

- **The text in capitals indicates who the question is to be asked of (here, all respondents). 'LongIll' is the question and variable name.**
- **Indicates the last year the question was included in the National Survey, if at all, as well as the original source of the question if applicable. See next page for key to acronyms.**
- **The wording of the question to be read out by the interviewer to the respondent will always be displayed in bold type. Text in non-bold type and capitals is an instruction for the interviewer.**

**Do you have any physical or mental health conditions or illnesses lasting or expected to last for 12 months or more?**

</tbody>
</table>

**GO TO Disab1-6 [Module ends]**

- **Indicates whether more than one answer option can be selected.**
- **This 'routing' text shows which question to go to next, depending on the answer option selected. If routing text applies to subsequent codes for that question, it is not repeated at each code.**

All questions have a coding frame associated with them, which means that the computer only allows the interviewer to record certain answers. These are given as positive numbers within the coding frame. In certain questions, you will see that the interviewer will be able to record 'Other' as an answer option.

'Don't know' is used when the respondent doesn't know the answer. Separate codes are also available if the respondent refuses to answer the question or when the question isn't applicable.
**Question sources**

The question’s previous inclusion in the National Survey is marked under the question / variable label. For example, NS 1718 indicates the question was last included in the National Survey in 2017-18. NS NEW indicates the question is included in the National Survey for the first time.

Questions are taken from existing surveys where possible. Where relevant, the source is also marked under the question / variable label and the year of the source survey is given (e.g. SHS 2008 refers to the Scottish Household Survey in 2008). Where the question or answer options differ from the original source, the question source is marked with an “a” (adapted). Where no source is marked, this indicates a new question has been developed specifically for the National Survey.

Democracy and understanding of local councils

ASK ALL
I am going to ask some questions about your local councillor. By local councillor I mean the elected representative for your area who sits on [name of local authority].

For each of these, please think about your local councillor – not your local council.

THESE QUESTIONS ARE ABOUT COUNCILLORS WHO SIT ON COUNTY AND COUNTY BOROUGH COUNCILS (ALSO KNOWN AS LOCAL AUTHORITIES), NOT THOSE WHO SIT ON COMMUNITY AND TOWN COUNCILS.

ASK ALL
LocCouCont
NS 1617
Have you contacted your local councillor in the past 12 months, for example with an enquiry, complaint or problem?

ONLY INCLUDE CONTACT WITH COUNCILLOR. DO NOT INCLUDE CONTACT WITH LOCAL COUNCIL (E.G. ABOUT HOUSING APPLICATIONS OR REPAIRS).

SINGLE CODE

I'd like to ask you whether you have drunk different types of alcoholic drink in the last 12 months.

I'd like to hear about ALL types of alcoholic drinks you have had.

If you are not sure whether a drink you have had goes into a category, please let me know. I do not need to know about non-alcoholic or low alcohol drinks.

I'd like to ask you first about normal strength beer, lager, stout, cider or shandy which has less than 6% alcohol.

How often have you had a drink of normal strength beer, lager, stout, cider or shandy (excluding cans and bottles of shandy) during the last 12 months?

Active travel

ASK ALL
I'm now going to ask you about ‘active travel’: that is, walking or cycling as a means of transport. By this I mean when you walk or cycle in order to get to a particular destination such as work, the shops or to visit friends. The questions do not cover walking and cycling that you do purely for pleasure, just for exercise, or for just walking the dog.

When answering please include journeys where you walk or ride all the way to somewhere, and where you walk or ride as part of a longer journey. For example, cycling to a train station.

ASK ALL

In the last three months, how frequently have you used a bicycle as a means of transport?

The next questions are about outdoor recreation in Wales. We are interested in leisure visits and excursions to the Welsh outdoors of any length.

These visits may have been made from your home or during holidays.

By outdoors, we mean open spaces anywhere in the countryside or in towns and cities, including your local neighbourhood, paths, woodland, parks and farmland. Visits may have involved both active and passive pursuits.

Please include any outdoor exercise which you mentioned in earlier questions.

ACTIVE MEANS THINGS LIKE CYCLING, RUNNING, ETC. PASSIVE MEANS THINGS LIKE WILDLIFE WATCHING, LOOKING AT SCENERY, ETC.

Bags used for shopping

SUBSAMPLED MODULE: ASK OF A RANDOM SUBSAMPLE OF 4K RESPONDENTS (SAME AS RECYCLING MODULE)
ASK ALL
I’d now like to ask you about the types of bags you use for different kinds of shopping. Please just think about the shopping you go out to do in person, not online shopping.

IF NECESSARY: The reason for asking these questions is to understand how people are using different types of bags since the single-use carrier bag charge was introduced. It will help Welsh Government know whether any policy changes or new policies are needed.

Annex A – Subsampled topics

As noted at the start of the questionnaire, not all questions are asked of all respondents. Some questions only apply to some respondents (e.g. questions for parents with children at school); others are asked of a random subsample of respondents.

The arrangements for subsampling topics are set out below. Where a topic is not in this list, it is asked of all respondents, depending on respondent characteristics (e.g. questions on schools are only asked of parents of school-age children).
