

Homelessness Data Collection

April 2023 - March 2024

The Welsh Government's Statistical Service runs this data collection. It is a source of information on the number of homeless cases dealt with by local authorities in Wales. It is used to inform policy, to answer queries, in briefings and for publication in First Releases. It helps to establish a picture of the overall extent of homelessness in Wales and Great Britain.

Homelessness prevention (Section 66)	In its broadest terms, 'homelessness prevention' is where a local authority takes positive action to provide housing assistance to someone who considers him or herself to be at risk of homelessness in the near future, and as a result the person is able to either remain in his or her existing accommodation or obtain alternative accommodation providing a solution for at least the next 6 months. The key points are:
	• the person has sought assistance from the local authority or a partner organisation;
	• the person considers him or herself to be at risk of homelessness;
	• the local authority may or have reason to believe the person is likely to become homeless within 56 days;
	• the local authority or partner organisation consider that the positive action provided will prevent homelessness for at least the next 6 months.
	• the positive action is provided by: the local authority; or a partner organisation, or a combination of the local authority and one or more partner organisations working together;
	A case should be recorded as a homelessness prevention where a local authority takes positive action to provide housing assistance to someone who considers him or herself to be at risk of homelessness in the near future and this positive action is not being provided to discharge a duty to secure accommodation under the homelessness legislation. A case ceases to be classed as a prevention when a section 73 outcome is issued. This only applies to those owed a duty under section 66.
Homelessness relief (Section 73)	Positive action to prevent homelessness cannot be taken once the authority is satisfied that someone has become homeless (for example, the authority has notified the person of an outcome under section 63 that they are homeless). Following the notification under Section 63 that an applicant is homeless the Authority will be under a duty to take reasonable steps to help to secure accommodation.
	A case should be recorded as homelessness relief following notification under section 63 that an applicant is eligible and homeless and positive action to relieve homelessness is being taken.
Positive action	'Positive action' is assistance provided over and above general advice and information about homelessness and the prevention of homelessness provided under section 60 of the 2014 Act. The assistance must be provided to an individual, on a casework basis, with the specific aim of ensuring that the individual and his or her household will be able to either remain in their existing accommodation or obtain alternative accommodation. There must be file-based case recording, with outcomes confirmed at the point of recording that outcome through a system of quality checking and control.
Partner organisation	A partner organisation is any organisation which is assisting the local authority in tackling and preventing homelessness and is either :
	• funded by the local authority to assist it in tackling and preventing homelessness; or • is an organisation to which the local authority refers clients for assistance to help prevent that person becoming homeless or relieve homelessness.
Successful outcomes	For positive action to be recorded as successful, the authority must be satisfied that the intervention is likely to result in homelessness being prevented or relieved for at least 6 months and the accommodation is suitable.
	Cases should be recorded for the collection period when the positive action was actually provided.
	In cases where the positive action is taken by partner organisation, outcomes about likely success should be taken by a senior officer (or other adviser not directly involved in the case) of that organisation before being recorded as a successful case of homelessness prevention or relief.
Unsuccessful outcomes	Cases where positive action was unsuccessful are defined as where a household approaches the local housing authority for help because i) they consider they are homeless or at risk of homelessness and positive action took place following acceptance of a section 66 or 73 but was unsuccessful in preventing or relieving that risk or ii) assistance was refused or iii) non co-operation.
Self-contained	A self-contained dwelling is accommodation occupied by a household with exclusive use of bath/shower, inside WC and some kitchen facilities. Self Contained properties will relate to one rental agreement associated with the property.
Non self-contained	A non self-contained dwelling is accommodation occupied by a household which lacks exclusive use of bath/shower or WC or some kitchen facilities. These usually take the form of bedsit, shared housing, hostel or hostel-type accommodation in which each bedspace is therefore normally considered a non self-contained
Eligibility	Eligibility is set out in Schedule 2 of the Housing (Act) 2014 and the allocation of housing and Homelessness (Eligibility)(Wales) Regulations 2014.
Intentionally homeless	See section 77 of the Housing Wales Act 2014 for definition of intentionality.
Unintentionally homeless	Following discharge of section 73 under 74(2) or 74(3) the Local Authority will need to determine is the applicant is owed a duty under section 75 (duty to secure). Applicants will be owed the duty if they are considered to have a priority need and are unintentionally homeless (section 77 contains the definition of intentionality)
Priority Need	Section 70 of the Housing Wales Act 2014 contains the groups who have a priority need for accommodation, these groups are relevant for the provision of interim duty to accommodate (section 68) and duty to secure
Supporting people	The Supporting People Programme Grant (SPPG) helps vulnerable people in Wales to avoid homelessness and retain their independence. Much of the support provided under the SPPG is around prevention and there are clear links with the prevention agenda detailed in Part 2 of the Housing Act (Wales) 2014. It is envisaged that there will be joined up services within Local Authorities around the prevention of homelessness, which may include a range of services funded under the SPPG.

Required data items

In this spreadsheet, the cells that require data have the following properties:

All cells requiring data will be coloured pale blue.

Some cells derive values from other data items. These cells are coloured in grey. You will not be able to enter data into these cells.

Some cells do not need to be completed as they are not applicable. These cells are coloured in dark grey. You will not be able to enter data into these cells.

If you are unable to provide any data item, please leave the cell BLANK. Do not enter text (NA, N/A or Not collected etc.) into any cell other than the comments cells. We will assume that a zero in any cell signifies a zero count for this data item.

A White space has been provided next to each table for comments. If any data items are missing then a comment must be added to the spreadsheet.

Validation Checks

Validation checks involve checking for common sense errors. These errors must be resolved before the spreadsheet is submitted via Afon.

Data items that pass validation will be coloured green.

Data items where no data is entered, or which break a validation rule, are coloured red. You should enter a zero where the data item is nil, or make a comment.

[Housing Act 2014](#)
- 0.2 The homelessness form collects data from Welsh local authorities on the discharge of their responsibilities under the homelessness legislation (Part 2 of the 2014 Act). Advice on these duties (Parts VI of the Housing Act 1996 and 2 of the 2014 Act) is given in the Homelessness Code of Guidance revised 2015.

- 0.3 This note provides guidance on how to complete the quarterly homelessness return which collects data on the operation of the homelessness legislation in Wales.
- 0.4 These notes are framed in the context of the homelessness provisions of the Housing (Wales) Act 2014 which came into force on 27 April 2015.
- The return covers numbers of households not persons.**
- 0.5 **Each household that applies for assistance could result in 1, 2, or 3 outcomes.**

Some sections of this return ask for a breakdown of households by ethnicity. The ethnic categories now used in this form have been expanded to match those recommended by the Commission for Racial Equality, now the Equality and Human Rights Commission.
- 0.6 www.equalityhumanrights.com

The Public Sector Equality duties under the Equality Act 2010 exist to protect people from discrimination on the basis of 'protected characteristics'. The Equality Act 2010 defines people's protected characteristics for those using a service as:
 - Disability;
 - Sex (gender);
 - Gender reassignment (gender identity or transgender);
 - Pregnancy and maternity;
- 0.7
 - Race;
 - Religion or belief;
 - Sexual orientation;
 - Age.
 These 'protected characteristics' are used in Tables 1 to 5 of this form.
- 0.8 These guidelines involve the ethnic self-classification by an individual or household.

Table 4d: Households found to be eligible, unintentionally homeless and in priority need during the year. Main reason for loss of last settled home by type of household

Record the main reason for the loss of the last settled home for Households found to be eligible, unintentionally homeless and in a priority need during the year.

The total number of such households recorded in this table should equal the total recorded in:

- row 5c i) of Table 1;
- the total recorded on Table 3.
- row 5c i) of Table 5; and
- the total recorded on Table 7.

General Guidance - Tables 5, 6 and 7[Back to Home Page](#)**Table 5: Households for which assistance has been provided during the year – by ethnic group of applicant**

Record the households for which outcomes were taken during the year by Ethnic Group of applicant (table 5) in accordance with notification requirements in Section 84 and Section 63 of the Act. Section 63 outcomes (outcome of assessment only apply for rows 5a and 5b. All other data relates to the ending of the corresponding duty in accordance with a section 84 notification.

The total number of outcomes recorded in Table 1 must be the same as the total number of outcomes recorded in Table 5.

These sections cover all final outcomes reached during the year, regardless of when the application was made, on households applying for accommodation or assistance in obtaining accommodation which your authority had reason to believe were homeless or threatened with homelessness (as defined in Sections 175 to 178 of the Act).

Applications withdrawn before a decision is reached should be excluded.

Asylum seekers should not be included; only include households accepted as homeless where the applicant has been granted 'Leave to remain' under immigration legislation.

For detailed guidance on the rows in table 5 please refer to the guidance for table 1

Table 6 - Homeless households accommodated by your authority at the end of the quarter

This section records the number of households accommodated at the end of the quarter by both their type of accommodation and by the length of time in that accommodation.

These sections record the number of households accommodated at the end of the quarter:

- who are being assisted under section 73 /75 but accommodated under section 68/75 or are accommodated under 68 pending the outcome of the assessment under section 62. This will also include those households who are continued to be accommodated under section 68 following the ending of Section 73 by (74.2) and (74.3) where they do not qualify for 75 as they are in Priority need and intentionally homeless (if the Authority is having regard to intentionality for that group)

- that have been found to be eligible for assistance, unintentionally homeless and in priority need and are temporarily accommodated while they await suitable accommodation.

Figures are requested for each of the following different circumstances:

Rows 1, 2, 3	• Hotel annexes consisting of self-contained units of accommodation where meals are not provided should not be included - they should be treated as private sector accommodation and shown in one of the first three rows.
Row 6	• Hostels include shared accommodation, owned or leased and managed by either a local authority, housing association or non profit making organisation including reception centres, emergency units and night shelters. • Male refuges should be included with hostels.
Row 8	• The bed and breakfast heading should include privately owned or managed hotels/guest houses with some shared facilities.
Row 9	• Other includes mobile homes, such as caravans, 'demountables', 'portacabins' and 'transportables'. • Other should not include supported housing. Supported housing should be included under the type of provider (hostel, refuge etc.).
Row 10	• Homeless at home refers to any arrangements whereby a household remains in, or returns to, the accommodation from which they are being made homeless, or in other accommodation found by the applicant. Include any households who moved from accommodation arranged by your authority into this type of arrangement.

Table 7: Reasons for discharge of duty under section 75 during the year

This section relates to reasons for discharge of duty for Local Authorities under section 75

Someone held in custody remains eligible for homelessness services.

Where someone is sentenced to custody, an Authority must consider the individual circumstances of the case, such as existing housing situation, length of sentence, etc, before deciding whether the duty is to be ended. An Authority should not have a blanket policy of closing the cases for all existing customers who are held in custody.

Data are requested on the reasons for discharge of duty since the households were found to be eligible for assistance, unintentionally homeless and in priority need following the ending of section 73 via 74.2 or 74.3

You must record the household as "ceased to be eligible" for those who:

- die;
- are sectioned and sent to an institution on a long-term basis.
- Are no longer eligible in respect of immigration control (further guidance on immigration is available in the Code of guidance).

Row 2 | withdrawal of application.

Row 3 | The duty has ceased as it has been established that the duty should not have been owed due to a mistake of fact. (Porteous vs WDCC)

Row 4 | Loss of suitable (temporary) accommodation secured under section 75 as a result of the definition contained in Section 77 (Intentionality).

Row 5 | Acceptance of suitable housing via Part VI Housing Act 1996 (the allocation scheme).

Row 6 | Applicant accepts a suitable Private Sector Offer as defined in Section 76.4.

Row 7 | as defined Section 76.7 voluntarily ceased to occupy as his or her only or principal home.

Row 8 | The rows for acceptances/refusals of offers of accommodation through the allocation scheme should include nominations to housing associations.

Row 9 | Refusal of a suitable private rented sector offer as defined Section 76.4

Row 10 | Refusal of an offer of suitable accommodation (Temporary).

Row 11 | 79.5 The person has unreasonably failed to co-operate.

Row 12 | Total number of cases who had their section 75 duty discharged.

General Guidance - Table 8[Back to Home Page](#)**Table 8: Total occurrences in bed and breakfasts during the year, by length of stay and whether the provision is through Homelessness or Social Services legislation****General notes**

This section records the number of placements made by Local Authorities into Bed and Breakfast accommodation to meet the immediate housing needs of all young people aged 16/17, and also 18-20 year olds (up to 21st birthday) who have previously been in care.

These sections record the number of individual occurrences of bed and breakfast being used to accommodate the specified groups either through section 68 and 75 Housing (Wales) Act 2014 or Section 75/76/77 Social Services and Well-being (Wales) Act 2014.

- A person may move between different bed and breakfasts during the reporting period, and this table will capture the overall duration of placement irrespective of whether the young person has moved between different establishments.
- If a young person moves between the respective legislations but continues to be accommodated in bed and breakfast, this would be recorded as a separate occurrence starting from when the different legislative power comes into effect.
- For example:
Customer placed in Bed and Breakfast under section 68 Housing (Wales) Act 2014 for 48 hours, customer is then provided accommodation under social services legislation for 48 hours until an alternative arrangement is made. This would be recorded in column B and C.

For the purpose of this table, Bed and Breakfast accommodation is defined as:

- B&B accommodation means commercially provided accommodation (whether or not breakfast is included):

(a) Which is not separate and self-contained premises;

(b) In which any of the following amenities is not available to the applicant or is shared by more than one household:

(i) A toilet;

(ii) Personal washing facilities;

(iii) Cooking facilities.

(c) which is not accommodation which is owned or managed by a local housing authority, a registered social landlord or a voluntary organisation; or

(d) Which is not an establishment registered under the provisions of the Care Standards Act 2000

- For example:

One 16/17 year old is accommodated via Section 68 Housing (Wales) Act 2014 in B&B A, one week later is moved to B&B B for 3 weeks. They leave B&B and move to supported housing. The data return would be an entry of 1 to column B row 3.

- Figures are requested for the following circumstances

Rows 1, 2, 3, 4

Occurrences of bed and breakfast use by legislation used and the length of time the placement/placements were provided to the young person until the bed and breakfast provision has ceased.

- Column E:

This is not directly linked to being granted priority need under section 70 Housing (Wales) Act 2014, as a person may be vulnerable for another reason. Those entered into this column must have previously been in care at some point in their lives and are aged 18-20 inclusive.
